Nature and Source	2019	2018	2017	2016	2015

Part II, Line 17b - 10% Facts and Circumstances Test - Prior Year

The THANC (Thyroid, Head and Neck Cancer) Foundation has seen a gradual decline in our public support percentage since 2015. This can easily be explained and fits within the facts and circumstances surrounding this decline. In 2013 the foundation received a promise to give in the amount of \$1,000,000 per year for the upcoming 5 to 7 years (dependent on the employment contract of THANC's medical Advisor, Dr. Mark Urken). While the foundation is grateful for this support and the programmatic accomplishments which have resulted from this funding, this grant has, over the years, skewed our public support percentage. Since this is a multi-year contribution, it cannot be identified as tipping or "unusual" so it cannot be discounted, but please review the changes which have taken place over the lifetime of this grant as follows:

2011 - 84.16%
 2012 - 84.89%
 2013 - 88.83%
 2014 - 93.46%
 2015 - 57.04%
 2016 - 38.63%

Part VI Supplemental Information. Provide the explanations required by Part II, line 10; Part II, line 17a or 17b; Part III, line 12; Part IV, Section A, lines 1, 2, 3b, 3c, 4b, 4c, 5a, 6, 9a, 9b, 9c, 11a, 11b, and 11c; Part IV, Section B, lines 1 and 2; Part IV, Section C, line 1; Part IV, Section D, lines 2 and 3; Part IV, Section E, lines 1c, 2a, 2b, 3a, and 3b; Part V, line 1; Part V, Section B, line 1e; Part V, Section D, lines 5, 6, and 8; and Part V, Section E, lines 2, 5, and 6. Also complete this part for any additional information.
(See instructions.)

Part II, Line 17b - 10% Facts and Circumstances Test - Prior Year (continued)

2017 - 23.31%

2018 - 18.56%

2019 - 17.76%

Prior to receiving this major commitment and subsequent contributions starting in 2013, THANC always met or exceeded the percentage of public support required to maintain our status as a public foundation. As anticipated in 2019, our percentage of public support declined further - but only a small amount to 17.76%. The 7 years of funding promised by this single donor at this level has now ended, therefore our percentage of public giving should rapidly increase. We have obtained the commitment of continued funding from this donor but the amount has declined significantly with a promise to give \$500,000 in 2020, \$250,000 in 2021 and \$250,000 in 2022. These significant but lower major gifts will allow our public support percentage to gradually return to the significantly higher levels we previously demonstrated.

In addition, the foundation has continued to plan fundraising events (run by our existing staff) and continued outreach to the general public through solicitations and social media to continue to expand our micro donations and moderately sized donations from the general public. We anticipate that following the expiration of this large grant our percentages will revert back to acceptable levels.

The THANC Foundation carries out research related to head and neck and thyroid cancer; provides education for both the physicians who treat these patients as well as patients and their caregivers, and also provides patient support materials via online resources. The various programs which the organization focused on in 2019 are the Thyroid Care Collaborative, the THANC (Thyroid, Head and Neck Cancer) Guide (renamed from prior designation as the HNCG - Head and Neck Cancer Guide), and a mentoring and clinical research initiative led by a team of Research Associates under the direction of Medical Advisor Dr. Mark Urken. Additionally, the foundation is a member of the HNRN (Head and Neck Research Network), a multi institutional collaborative focused on head and neck cancer research. The research conducted within the various programs of the THANC Foundation is designed to collaborate with other large treatment centers in order to pool patient data which will result in studies with statistical significance. It is the foundation's goal to acquire critical information regarding the effect of cancer therapies so treatments can be tailored to improve outcomes for patients to enhance quality of life. Since 2009 nearly 2150 functional assessments of voice, speech, tongue function, swallowing and quality of life have been conducted. Patients are seen pre and post treatment and participants have typically undergone radiation or chemoradiation and/or surgery. Seventy-two people were enrolled in THANC research studies in 2019. A complete list of research studies for 2019 is listed below:

In addition to the foundation's research initiatives - the areas of programming that the foundation has focused on for the past 8 years include the development of the TCC (Thyroid Care Collaborative). The TCC is a tool to record and monitor individual patient records. Through a variety of unique features, it enhances the quality of thyroid care that can be offered to individuals. The TCC's vision has been to advance the quality of care of thyroid nodules and thyroid cancer to its highest level through the development of an internet based system for reporting and accumulating information about each patient in a HIPAA compliant manner. The goal is

to provide the most comprehensive and personalized treatment to patients over the course of their lifetime.

The THANC Foundation has also developed a comprehensive website to help head and neck cancer patients and their caregivers and family members to deal with the early stages following the diagnosis of head and neck cancer as well as thyroid cancer. This initial diagnosis period is typically fraught with tremendous anxiety and uncertainty. The website is in the process of being updated and revamped and expanded to include extensive content on the thyroid cancer journey in addition to simplifying and updating the language of the head and neck cancer content. The website currently contains over 2000 pages of expert written content in laymans terms. Information is provided related to treatment, side effects and after care. It also provides suggestions for how to manage the emotional and psychological aspects of a cancer diagnosis and treatment. This revamp and re-design will continue into 2020. This website has been historically used by over 50,000 visitors per month worldwide. It also contains videos of patients sharing their stories. This gives a keen awareness of the upheaval these diseases have on the family unit and provides much needed support so patients realize they are not alone - and that others before them have successfully navigated this difficult journey. The website also includes information for children and teens, with stories and games to reach this younger audience.

THANC also offers head and neck and oral cancer screenings one time per year in the month of April for oral cancer awareness month. This screening typically sees between 50--100 individuals and refers them for additional care if a concern is noted. Awareness campaigns are held twice per year in which 30 stories are shared in

the 30 days of April (oral/head and neck cancer) and September (thyroid cancer) for the designated awareness months. These stories are shared on social media and bring new users to find our resources.

Finally, the education portion of our mission serves to train one head and neck oncologic and reconstructive head and neck and thyroid cancer surgeon each year - and a myriad of observers from the US and abroad who observe surgery and our multidisciplinary approach to patient care from one day to one year in duration. The team of Research Associates employed by the foundation are instrumental in carrying out the programmatic initiatives THANC accomplishes each year while also providing invaluable education to these recent college graduates prior to their application to and acceptance to medical school.
