Part II, Line 17a - 10% Facts and Circumstances Test - Current Year

The THANC (Thyroid, Head and Neck Cancer) Foundation has seen a gradual decline in our public support percentage since 2015. This can easily be explained and fits within the facts and circumstances surrounding this decline. In 2013 the foundation received a promise to give in the amount of \$1,000,000 per year for the upcoming 5 to 7 years (dependent on the employment contract of THANC's medical Advisor, Dr. Mark Urken). While the foundation is grateful for this support and the programmatic accomplishments which have resulted from this funding, this grant has, over the years, skewed our public support percentage. Since this is a multi-year contribution, it cannot be identified as tipping or "unusual" so it cannot be discounted, but please review the changes which have taken place over the lifetime of this grant as follows:

2011 - 84.16%
 2012 - 84.89%
 2013 - 88.83%
 2014 - 93.46%
 2015 - 57.04%
 2016 - 38.63%

Part II, Line 17a - 10% Facts and Circumstances Test - Current Year (continued)

2017 - 23.31%

2018 - 18.56%

2019 - 15.44%

2020 - 25.82%

Prior to receiving this major commitment and subsequent contributions starting in 2013, THANC always met or exceeded the percentage of public support required to maintain our status as a public foundation. As anticipated in 2019, our percentage of public support declined further - but only a small amount to 15.44%. The 7 years of funding promised by this single donor at this level has now ended, therefore our percentage of public giving should rapidly increase. We have obtained the commitment of continued funding from this donor but the amount has declined significantly with a promise to give \$250,000 in 2021 and \$250,000 in 2022. We can already see a move towards a higher level of public support from the decline in funding from this donor in 2020-which resulted in the percentage of public support increasing by more than 10% from 15.44 in 2019 to 25.82 in 2020. We are confident that with this decreased grant funding, the percentage of revenue which comes from public support will continue to rise. These significant but lower major gifts will allow our public support percentage to gradually return to the significantly higher levels we previously demonstrated.

In addition, the foundation has continued to plan fundraising events (run by our existing staff) and continued outreach to the general public through solicitations and social media to continue to expand our micro donations and moderately sized donations from the general public. We anticipate that following the expiration of this large grant our percentages will revert back to acceptable levels.

Form 990, Part III, Line 4a - Program Service Accomplishments:

The THANC Foundation carries out research related to head and neck and thyroid cancer; provides education for both the physicians who treat these patients as well as patients and their caregivers, and also provides patient support materials via online resources. The various programs which the organization focused on in 2020 are TIRO (Thyroid International Recommendations Online), the THANC (Thyroid, Head and Neck Cancer) Guide (renamed from prior designation as the HNCG - Head and Neck Cancer Guide), and a mentoring and clinical research initiative led by a team of Research Associates under the direction of Medical Advisor Dr. Mark Urken. Additionally, THANC dissolved the TCC (Thyroid Care Collaborative) in 2020. The research conducted within the various programs of the THANC Foundation is designed to result in studies with statistical significance regarding the effect of cancer therapies so treatments can be tailored to improve clinical outcomes for patients to enhance quality of life. Since 2009, 2237 functional assessments of voice, speech, tongue function, swallowing and quality of life have been conducted. Patients are seen pre and post treatment and participants have typically undergone radiation or chemoradiation and/or surgery. 54 people were enrolled in THANC research studies in 2020 (down from 72 in 2019 due to COVID-19). A complete list of studies for 2020 is listed below:

1. Functional outcomes and quality of life following head and neck cancer
2. Functional outcomes in patients undergoing microvascular reconstruction for osteoradionecrosis of the mandible - a prospective study
3. Functional outcomes after pharyngo-esophageal (PE) reconstructive surgery -
a prospective study

4. Functional outcomes and quality of life following transoral robotic surgery (TORS) for head and neck cancer treatment

5. Sensation restoration in the lower lip post-mandibulectomy

6. The predictive value of tumor pattern of invasion for intraoral carcinoma (WPOI-5)

7. Determining the role of a prophylactic coronoidectomy to prevent post-radiation trismus

In addition to the foundation's research initiatives - the areas of programming that the foundation has focused on for the past 9 years include the development of the TCC (Thyroid Care Collaborative). The TCC was a tool to record and monitor individual patient records. Due to a significant increase in costs required to protect the sensitivity of the private health information housed within the TCC, the decision was made to shut this resource down in 2020.

The THANC Foundation has also developed a comprehensive website to help head and neck cancer patients and their caregivers and family members deal with the early stages following the diagnosis of head and neck cancer as well as thyroid cancer. This initial diagnosis period is typically fraught with tremendous anxiety and uncertainty. The website was updated and revamped in 2020 and expanded to include extensive content on the thyroid cancer journey in addition to simplifying and updating the language of the head and neck cancer content. The website currently contains over 2000 pages of expert written content in laymans terms. Information is provided related to treatment, side effects and after care. It also provides suggestions for how to manage the emotional and psychological aspects of a cancer diagnosis and treatment. This website has been historically used by over 50,000

visitors per month worldwide. It also contains videos of patients sharing their stories. This gives a keen awareness of the upheaval these diseases have on the family unit and provides much needed support so patients realize they are not alone - and that others before them have successfully navigated this difficult journey. The website also includes information for children and teens, with stories and games to reach this younger audience.

In 2020 THANC developed TIRO (Thyroid International Recommendations Online) which is a tool designed to compare and contrast trusted clinical practice guidelines in the management of thyroid cancer. Areas of concordance and discordance are highlighted. In areas where discordance exists, educational content is referenced and a weekly education session for all thyroid cancer care providers was started during the first week of the COVID-19 pandemic lockdown and has continued to the present day. These sessions are referenced in TIRO and available to educate physicians at a time convenient to them.

THANC also offers head and neck and oral cancer screenings one time per year in the month of April for oral cancer awareness month. This screening typically sees between 50-100 individuals and refers them for additional care if a concern is noted.

Due to COVID-19 this screening did not take place in 2020. We anticipate that we will resume this free screening in April of 2022.

Awareness campaigns are held twice per year in which 30 stories are shared in the 30 days of April (Oral/head and neck cancer) and September (thyroid cancer) for the designated awareness months. These stories are shared on social media and bring new users to find our resources.

Finally, the education portion of our mission serves to train one head and neck oncologic and reconstructive head and neck and thyroid cancer surgeon each year - and a myriad of observers from the US and abroad who observe surgery and our multidisciplinary approach to patient care from one day to one year in duration. Note the observership program was also placed on hold during the pandemic - and we hope it will resume in 2022. The team of Research Associates employed by the foundation are instrumental in carrying out the programmatic initiatives THANC accomplishes each year while also providing invaluable education to these recent college graduates prior to their application to and acceptance to medical school.
